

April 11, 1961

MEMO TO: J. L. Pokoski - 280

SUBJECT: Orientation Class - 1401 Process Overlap Feature

In order to acquaint persons who will be directly or indirectly concerned with the 1401 Overlap feature, the subject class has been planned. It is scheduled for Monday, April 17, 1961 from 8:30 A.M. to 11:30 A.M. in the Conference Room, S. W. Corner, Building 9.

The itinerary consists of:

General Philosophy and Programming Considerations	- W. S. Schaffer
Magnetic Tape and I/O Adapter Controls	- B. T. Rucker
R/P Controls	- E. M. Bloom
Processing Controls	- K. A. Bell

Since this is the only general discussion session planned, you are cordially invited to attend or send a representative to this class. Please confirm your representation with Mr. R. E. Andrews, Department 280, Ext. 4459 or 4492.

  
J. S. Gonzola
